## SKILLS

### ❖ Languages

HTML , CSS , JavaScript , C/C++ , Java

### ❖ Tools & Platforms

Git, GitHub, VS Code

### ❖ Frameworks & Libraries

React.js , Tailwind CSS , Bootstrap

## EDUCATION

- ❖ Computer Science Engineering | Shri Yogindra Sagar Institute of Technology and Science , Ratlam . *CGPA: 8.27 | (Aug 2020 - June 2024)*
- ❖ XII (M.P. Board) | Govt. H. Sec. School of Excellence , Ratlam *90% | 2020*
- ❖ X (M.P. Board) | Govt. H. Sec. School of Excellence , Ratlam *92.6% | 2018*

## ACADEMIC PROJECTS

### ❖ Weather API - APIs Based Weather Application

This weather API project utilizes HTML, CSS, and JavaScript to interact with a weather data API, fetching and displaying current weather conditions and forecasts for user-selected locations in a user-friendly web interface.

### ❖ Personal Portfolio

A personal portfolio project, crafted with HTML, CSS, and JavaScript, showcasing my skills and achievements. It features an interactive and visually appealing design, reflecting my professional identity and creative talents.

### ❖ Password Generator

A password generator project utilizes JavaScript to create strong, randomized passwords based on user-defined criteria. HTML/CSS provide the interface for user interaction and display generated passwords.

### ❖ Razorpay Clone

A Razorpay clone website, crafted with HTML and CSS, offers seamless payment processing, mimicking the original's user-friendly interface and secure payment gateway for online transactions.
